WELCOME

On behalf of the International University Sports Federation, it is our pleasure to extend a warm welcome to all participants of the 2024 FISU Cycling Championships in San Carlos, Costa Rica, taking place from 29 May to 2 June. San Carlos, known for its picturesque landscapes and vibrant culture, provides the perfect backdrop for this thrilling event.

This region has a rich history of hosting various international sporting competitions, and the World University Cycling Championships will add to its legacy. From challenging cycling routes to the warm hospitality of the local community, we are confident that this championship will be a memorable experience for all involved.

We anticipate the participation of cycling enthusiasts from numerous nations, creating a diverse and spirited atmosphere. As we embrace the FISU motto of "excellence in mind and body," we look forward to witnessing fair and exhilarating competitions amidst the natural beauty of San Carlos.

Join us for a celebration of athletic excellence, cultural diversity, and the joy of cycling. We can't wait to see you in San Carlos for an unforgettable championship experience!

MESSAGE FROM THE FISU PRESIDENT

Dear friends,

I am delighted to welcome you to San Carlos, for the 2024 FISU World University Championship Cycling.

Competing at the World University Championships is a career highlight for many university athletes. For others, it is a step up to the next level of performance. What they all have in common is that they meet like-minded people. May these competitions not only serve as a sporting comparison but also as an opportunity for intercultural exchange. This is of particular importance and significance in the challenging times we are all facing.

From this point of view, we are reminded of the need to prioritise sport and healthy social exchange. FISU firmly believes that university athletes are the role models and future leaders the world needs, now more than ever.

Over the following 5 days, you will compete alongside some of the best student-athletes in the world. The FISU World University Championships demand skill, athleticism, and single-minded determination to do your best. But beyond the competition, FISU urges you to take full advantage of this moment. May you return home with memories that will last a lifetime and perhaps even some new friends from faraway places.

None of FISU's events would be possible, meanwhile, without the gracious generosity of our hosts. I want to extend our sincere gratitude to the National University Sports Federation of Costa Rica, the organisers for their dedication and the volunteers for their strong will to serve this event. I am confident you will do the same.

FISU is also grateful for the ongoing support of the International Sports Federations. Together, we aim to provide the highest level of technical excellence on and off the field of play. We remain convinced that the best student-athletes deserve nothing less.

I am confident that the 2024 FISU World University Championship Cycling in San Carlos will give you every opportunity to shine. I wish you the best of luck!

Leonz Eder
FISU President

TRAVEL

The countries shall be responsible for their own cost of travel to Aeropuerto Internacional Juan Santamaría (SJO). This is located 2,5h from San Carlos. This is the official point of entry of the Championship.

ACCOMMODATION

The first official hotel for the FISU Cycling Championship is the Hotel Termales del Bosque (<https://termalesdelbosquecr.com/>).

The property belonged to Don Esteban Ramírez since 1886, the date of the first deed, a resident of the city of Naranjo and great-grandfather of the current owners, who are the Arroyo Bolaños family.

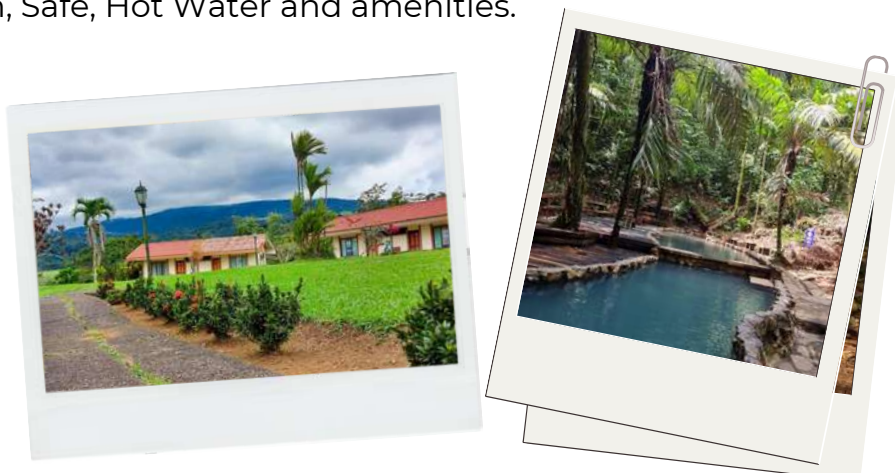

In 1996, it was decided to exploit the thermal water sources for tourism, which spring to the surface after having filtered into the slopes of the Platanar volcano and which are heated by underground lava veins to temperatures of 50 C. These sources have mineral content and they are recognized for their therapeutic properties.

The hotel rooms are strategically located, all 45 rooms distributed in 5 sections have views of the gardens. There are rooms for single, double, triple and quadruple occupancy.

We also have 3 fully equipped Villas with kitchen, living room, two bedrooms with TV, air conditioning, wifi, private bathroom and hot water. Each villa with capacity for 7 people.

Guests can stay connected with free in-room WiFi.

You will also enjoy the following benefits in the room during your stay: Air Conditioning, Cable Television, Safe, Hot Water and amenities.
